PTO-326 (Rev. 04-01)

Application/Control Number: 09/936,489

Art Unit: 1651

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6 and 21-22, drawn to lactic acid bacteria belonging to *Lactobacillus* or a food composition thereof.

Group II, claim(s) 7-8 and 19 drawn to a method of making an ingestible support material using a *Lactobacillus*.

Group III, claim(s) 9-10, drawn to a method of making an ingestible support material using a supernatant of a culture of *Lactobacillus*.

Group IV, claim(s) 11, 13 and 20 drawn to a method of prevention or treatment of a disorder associated with diarrhea by administering a strain of *Lactobacillus*.

Group V, claim(s) 12 and 14-18, drawn to a pharmaceutical composition containing at least one *Lactobacillus* or a supernatant of a culture thereof.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

First, the inventions of groups I and V and II-IV do not match a permitted category as PCT Rule 13.2 does not provide for multiple methods or products in one category. A variety of processes and compositions are claimed having distinct properties. For example, groups I and V are drawn to include different compositions requiring different levels of purity and/or additional requirements for their functional intended use. These groups include one strain or multiple strains and supernatants, for example.

No common inventive concept is shared among groups I through V, since a technical relationship is lacking among the claimed inventions involving one or more special technical features because *Lactobacillus* strains capable of preventing colonization of the intestine with pathogenic bacteria causing diarrhea are known in the art. See, e.g., WO 00/53200, Examples, or WO 99/29833, Examples, both of record.

Application/Control Number: 09/936,489

Art Unit: 1651

The requirement of unity of invention is not fulfilled because there is no technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" means those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art. Therefore, a technical relationship is lacking among the claimed inventions involving one or more special technical features.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call was made to Mr. Barrett on 6/9/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irene Marx whose telephone number is (703) 308-2922. The examiner can normally be reached on Monday through Friday from 6:30 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Wityshyn, can be reached on (703) 308-4743. The appropriate fax phone number for the organization where this application or proceeding is assigned is before final (703) 872-9306 and after final, (703) 872-9307.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to Customer Service whose telephone number is (703) 308-0198 or the receptionist whose telephone number is (703) 308-1235.
